

WHY A \$50.00 MINIMUM?

Sonic Tattoo Inc. upholds the highest standards. We consider ourselves to be the leaders in our industry and will remain to strive for the highest standards in the Niagara Region. Often people ask us why we have a \$50.00 minimum charge for tattoos. We have put together this list so you have a better understanding of the service you are receiving at our studio.

- * All of our needles are brand new, sterilized, single use and disposable.
- * All of our pigments are pre-poured into individual single use ink caps.
- * All needles and tubes are sealed into separate autoclave pouches and sterilized in a Ritter M7 hospital grade steam autoclave.
- * All needles and tubes remain in their sterilized packaging until they are opened in front of you, the client.
- * All sharps waste such as piercing and tattoo needles are disposed of by Stericycle a company that charges to dispose of bio hazardous waste.
 - * To avoid any possibility of cross contamination, all of our work surfaces are sterilized with a bactericidal, virucidal, fungicidal and tuberculocidal surface sterilant after each client as well as several times throughout the day.
 - * All tattoo machines, clip cords, power supplies and bottles that may be touched during work on a client are covered with disposable poly bags/barriers which are discarded after each client. Each of our artists wear Nitrile gloves (a non latex substance). Latex gloves are no longer considered safe because they break down with prolonged exposure to petroleum products and increased allergies to latex.
 - * To ensure our autoclave is always running at or above hospital standards, we conduct monthly spore testing. The tests are checked and verified by a company called Biological Monitoring Systems. The results of these tests are always available for your viewing.
 - * To reassure you about our processes we will explain every step of your procedure so that you feel comfortable in asking any questions. We also are available to you any time you have concerns, question or even comments once the work is finished.
 - * At Sonic Tattoo Inc., we guarantee all our tattoos. It's completely normal for a tattoo to lose some pigment colour during the healing process. It does not happen to all tattoos, just a small few. Touch-ups are free, as long as you keep your aftercare sheet. Your aftercare sheet is completed with the artists name and date properly filled out on the front. You will have to book an appointment 3 months from the date your tattoo was done.

And..... Always remember, all of our tattoo artists are "artists". A tattoo is art and not to be negotiated, when choosing a tattoo artist, you're looking for a combination of technical and artistic expertise. These are the kind of tattoo artists you'll find at Sonic Tattoo Inc.
